edX Executive Education

Why Executive Education?

LEORON / edX Executive Education offers certificate learning solutions, from the world's best universities and industry-leaders, designed for all levels of the organization, designed to build essential career focused skills and organizational capabilities.

Succession Planning Program

High Potential Leaders Program

Women in Leadership Program

Young Managers Program

Future Leaders with AI Program

ESG Leadership Program

Cohort-Based Executive Education

Develop leaders and high potential talent through tutor-led programs.

High Potential Leaders, or the vital few, account for the biggest chunk of your organizational output. But, while payoff from top talent is vast, the process of identifying and employing such individuals can often run tedious and break the bank. Through HPL coaching, your organization will identify internal top talent and channel resources towards upskilling performers to achieve maximum ROI on Human Capital.

Cohort-Based Executive Education Structure

6 - 8 Weeks, 4 - 8 Hours Per Week

- Faculty & SME led teaching teams
- Weekly assessments
- Personalized feedback
- 24/7 Support Courses

Unlock the potential of your organization.

Build essential skills pathways with verifiable and stackable credentials to upskill every employee with the highest quality learning experiences in the most job-relevant subject areas.

edX is a global learning platform and content producer partnering with 230+ of the world's leading learning institutions	15 Years Of Experience	190 Countries with registered learners
48M Learners	37/50 Top Ranked Universities	4,000+ Digital Learning Assets

Educational Partners:

Course Structure and Learning Experience

Orientation

Participants introduced to a community of fellow professionals enriching the experience and growing their network

Ongoing Assessments

Weekly assessments, focused on application of the weeks learning in their organizational context, personalized feedback provided by teaching team

Interactive content

Interactive and assessment driven experience, anchored in learning alongside and from others, ensures regular engagement driving strong outcomes and impact

Weekly content release

Weekly content release as the cohort progresses through the program together

Social learning and networking

Social learning throughout the program as participants and teaching teams share their unique perspectives and experiences providing greater context to the skills being learnt

People-supported Learning Experience

Teaching Faculty

World renowned faculty members presenting live sessions throughout the course

- Connecting course content to real time developments in the business landscape
- Driving relevance and application of learning

Teaching Team

Subject matter experts working in the field bringing critical industry experience and real world insights.

- Leading and facilitating forum discussions
- Providing individualised assignment feedback
- Weekly roundups

Success Adviser

One-on-one role supporting and focused on Learners successfully completing courses

- Assignment extension requests
- Customised catch up plans
- Mediating queries between students & learning teams
- Proactive outreach to drive completion

Global Success Team

The LEORON Executive Education Experience

Each LEORON Executive Education Experience includes an edX Executive Education Course with the following additional benefits:

A Live Virtual Session delivered by an expert instructor during Week 1 to introduce delegates to the edX executive program, materials, and platform. This session will cover learning topics, assessment information and capstone projects (where applicable).

A Face-to-Face review course in London during the final week of study. This course will cover all topics and material learned throughout the executive program and will support delegates with completing final assignments and capstone projects.

Additional services*:

Coaching/Mentoring sessions – Coaching sessions delivered within the duration of the executive program designed to support delegates with course material, assessments, and capstone projects.

Hospitality and travel services – LEORON will handle your travel and accommodation arrangements for the review course:

- Flight booking
- Hotel booking
- Airport transfers

*Please enquire for pricing on additional services

- Instructor-led face-to-face session with a leading industry expert
- Improved understanding of the content and learning material with real-life case studies
- Significantly increased probability of passing exams and overall completion rate

Programme Summary

The Oxford Artificial Intelligence Programme aims to

provide you with a sound understanding of AI technology: its history, functionality, and capability, as well as the challenges that are inherent in its methods. The programme also offers you the insight to develop a comprehensive opinion about the possibilities that AI holds, and reflect on its limitations and ethical, legal, and societal implications.

Through exposure to empirical research and real-life case studies, you will consider the potential presented by AI, and will be able to make an informed decision about implementing it in your organisation as you build a business case for its application.

October 13, 2024

London (on-site) training dates:

December 09-12, 2024

Programme Summary

To effectively drive a firm's success, business leaders and executives

across functions require sound financial fluency. An understanding of finance is essential in decision-making, participating in financial discussions, and having comprehensive insight into how an organisation operates.

The Oxford Executive Finance Programme is designed to build your proficiency in finance at an executive level by demystifying the nuances of financial practice and providing you with an overview of how firms make finance-driven decisions. Over six weeks, you'll develop the practical skills needed to value projects and measure the risk, return, and cost of capital. You'll access tools to help you navigate today's shifting financial landscape, through learnings infused with research from leading scholars and industry experts. You'll also explore the key topics that are changing financial practices, such as corporate governance, and environmental, social, and governance (ESG) factors.

On completion of the programme, you'll have a confident understanding of executive finance, and the foundations to enable you to drive your organisation forward through informed decision-making.

edX start date:

October 09, 2024

live virtual training date:

October 13, 2024

London (on-site) training dates:

December 16-19, 2024

Programme Summary

The Oxford Executive Leadership Programme enables you

to develop your own authentic leadership style and gives you the practical insights, frameworks, and tools to help you lead teams effectively through a deeper understanding of your role and purpose as a leader.

Over eight weeks, you'll explore core leadership themes, including: power and influence, motivation, authenticity and adaptability, change, complexity, and diversity.

Combining theory and functional practice, this programme is centred around aligning your leadership purpose with the strategic focus of your organisation's mission. Develop the critical behaviours needed to lead high-performance teams in order to create value for your business.

Schedule 1:

edX start date:

September 11, 2024

live virtual training date:

September 15, 2024

London (on-site) training dates:

November 18-21, 2024

Programme Summary

Working environments are becoming increasingly uncertain,

and traditional approaches to organisational strategy are no longer sufficient. In a rapidly changing business landscape, strategy development needs to evolve to adopt a broader view of thinking. On the Oxford Executive Strategy Programme, you'll explore a contemporary approach to organisational strategy, drawing on active Oxford research that has guided the leadership of global organisations. Breadth, or thinking broadly within strategy, has become as critical as thinking long-term. With this underlying theme, you'll explore strategy techniques through the distinct framework based on extensive research from Oxford Saïd faculty, focusing on the four Ps of strategy:

- **Purposes:** The fundamental aspirations calling for action in an organisation
- **Players:** The key stakeholders who drive the successful delivery of a strategy
- **Partnerships:** The web of competitive and collaborative relationships that sustain a strategy
- **Processes:** The means by which strategies are made and delivered

This highly practical online programme enables you to engage with rich global case studies and culminates in the creation of a personalised strategy playbook to use within your organisation. You'll walk away prepared to grow your role and lead strategy in complex environments with this unique Oxford approach.

October 27, 2024

Dubai (on-site) training dates:

December 16-19, 2024

Programme Summary

Only 2 per cent of S&P 500 CEOs are female,¹ however, reports highlight

that having a greater number of women in management and senior leadership positions is linked to heightened performance across organisations.² Nevertheless, women encounter a number of barriers in the workplace, which can inhibit their career progress.

The Oxford Women's Leadership Development Programme from Saïd Business School, University of Oxford offers you a space to critically examine, acknowledge, and develop your leadership style and skills within a community of like-minded professionals. Over the course of six weeks, you'll gain an understanding of the challenges female leaders face within the workplace and explore the unique strengths that will enable you to lead, negotiate, and influence others. Discover how to analyse and navigate cultural dimensions, and expand your mentorship capabilities in order to empower others to pursue leadership roles. Based on an overarching programme framework of self-acceptance, self-management, and self-development, you'll gain the skills and confidence to broaden your impact and realise your full potential as a leader.

Executive Education

Oxford Leading Strategic Projects Programme

Discover techniques for leading project teams to successful project delivery

Radiating Knowledge leoron.com

Organized by:
L3ORON Institute / edX Executive Education

Programme Summary

The dynamic nature of the modern business environment

means that traditional project management metrics such as time, cost, and scope are no longer sufficient indicators of success. To create long-term sustainable value for organisations, a strategic approach and a shift towards project leadership is required.

Strategic projects are those that have large-scale impact, requiring management that goes beyond the basics to help you adapt to unexpected change and contribute towards business objectives.

The Oxford Leading Strategic Projects Programme teaches you to effectively combine business strategy, leadership skills, and project management techniques to help guide your team through modern-day complexity in order to prosper from new opportunities. Over the course of six weeks, you'll discover the benefits of strategic project leadership and equip yourself with the necessary tools to implement upfront planning to respond to potential business risks within today's volatile, uncertain, complex and ambiguous (VUCA) world.

Executive Education

Communicating for Influence and Impact

Develop communication skills to future-proof your business and influence positive change.

Radiating Knowledge | leoron.com

Organized by:
LEORON / **edX** Executive Education

Programme Summary

Successful leaders understand the critical role of

being effective and authentic communicators, having a positive impact within their current and future sphere of influence, and setting purpose-driven goals. In an increasingly connected world, organisations are no longer evaluated on their financial performance alone, or even the quality of their products or services, but on their impact on society at large. Companies across all industries need leaders who can leverage communication to better meet business objectives, influence stakeholders, and drive meaningful change.

The Communicating for Influence and Impact online short course from the University of Cambridge Institute for Sustainability Leadership (CISL) provides a comprehensive understanding of how to communicate effectively using a range of tools and practical insights. On it, you'll learn how to embed purpose in your communication and organisation using storytelling and other techniques to influence change.

Executive Education

Cybersecurity: Managing Risk in the Information Age

Radiating Knowledge | leoron.com

Organized by:
LEORON / **edX** Executive Education

Programme Summary

Cyberattacks and threats are no longer a case of if, but rather

when. Cybercriminals can use phishing emails to gain passwords and credit card details, install malware that disrupts or destroys a computer network, or even use ransomware to hold information hostage. What can you do to protect your business? The Cybersecurity: Managing Risk in the Information Age online short course from Harvard's Office of the Vice Provost for Advances in Learning (VPAL), in association with HarvardX, offers an in-depth exploration of this complex landscape. This course will help you grow your ability to guard the integrity and confidentiality of your company's digital information.

You'll learn how to identify and manage operational, litigation, and reputational risk. As you progress through the program, you'll gain the tools and confidence to conduct vulnerability assessments and locate weaknesses within your organization's networks, systems, and data, and develop strategies for responding to a cyberattack. Cybersecurity isn't an IT or tech department responsibility, it's an organization-wide imperative. That's why this cybersecurity course is aimed at business leaders and executives, as well as specialists in web security, security administration, or information security roles. The C-suite or senior management team will learn how to lead their organization in a time of rapidly increasing cyber risk. This program is also suitably in-depth for cybersecurity professionals – risk analysts, technology specialists, and information security professionals.

edX start date:

September 11, 2024

live virtual training date:

September 15, 2024

London (on-site) training dates:

November 25-28, 2024

Programme Summary

As the world becomes ever more data-driven, analytical

skills are in high demand, but in very short supply. Organisations across the world are racing to gain a competitive edge by building their internal expertise to exploit quantitative techniques to their full potential.

Guided by LSE experts, this eight-week online certificate course provides you with the theoretical knowledge and practical skills to increase your ability to understand, interpret, and communicate data relevant to your role and organisation. During the course, you'll develop an understanding of how data-driven models can inform managerial strategy and decision-making, learn how to extract business insights from data, and predict future trends.

The course emphasises a hands-on approach to learning data skills through its introduction to Tableau, an industry-leading business intelligence and analytics software. Using Tableau, you'll have the opportunity to apply the tools and techniques you learn, and discover how it can be used to produce insights and high-impact data visualisations.

September 22, 2024

London (on-site) training dates:

December 02-05, 2024

Programme Summary

Many human resource (HR) departments today have

centralised systems that use outdated and inefficient approaches and software. In a continuously evolving business environment, HR plays a critical role in ensuring an organisation is equipped to digitise. Professionals in this space need to upskill and develop the ability to effectively utilise digital HR in order to succeed in their job and drive business performance. The Digital Transformation in HR online certificate course provides you with an in-depth overview of the key trends, issues, and methods involved in strategically implementing digital HR. Drawing on real-world case studies and recent research, you'll discover effective digital HR adoption strategies and develop the technological capabilities needed to enhance employee management and productivity. Guided by faculty from the Department of Management, ranked second in the world for business and management by the QS World University Rankings, you'll discover how to use data and technology to enhance the potential of your HR function and make more informed decisions. Finally, you'll learn how to create a digital human resource management (HRM) implementation plan and evaluate the emerging tools that assist with the digital transformation of HR practices at an organisational, functional, and individual level.

Dubai (on-site) training dates:

January 06-09, 2025

Programme Summary

While an MBA trains you to see the business world differently, financial expertise and business acumen, although vital, are not enough to influence your organisation's leadership. These core skills must be paired with strong leadership techniques and an understanding of your strategic environment to be truly effective. The MBA Essentials online certificate course from the London School of Economics and Political Science (LSE) is designed to help you understand your strategic environment, master financial details, and drive business success by influencing colleagues and consumers. You'll be equipped with an essential MBA toolkit as you navigate the contemporary business environment, guided by esteemed LSE faculty. The LSE MBA Essentials online certificate course arms you with hard and soft business skills to maximise your competitive advantage and lead with influence.

While an MBA trains you to see the business world differently,

Programme Summary

Highly valued but thinly understood, financial modelling combines accounting, finance, and business metrics in Excel to summarise a company's expenses, earnings, and prospective trajectory. Critical business strategies rely on accurate forecasting through financial models to calculate the impact of a future event or decision.

The Financial Modelling and Analysis online short course from the University of Cape Town (UCT) introduces you to these fundamental concepts so that you're able to create mathematical models in Microsoft Excel that reflect the historical, current, or projected value or financial performance of a company.

Over eight weeks, you'll learn the frameworks for short- and long-term financial forecasts in a practical and accessible way. Following a course-long case study, the curriculum augments your financial knowledge and helps enhance your abilities in financial modelling to be able to make strategic business decisions.

LIVE Virtual Training

Benefits

LIVE Virtual Training

Simple Set-Up

Easy registration through email.

Interactive

Live video interaction among participants and instructors.

Built-in chat to exchange messages individually or with the group.

Engaging

Knowledge retention with in-session activities.

Live Broadcasting

Students see PowerPoint slides in a split-screen to follow along with the instructor.

Tech Support

Dedicated host to ensure that everything runs smoothly.

Course Content Sharing

Learning materials and additional reading resources, case studies and exercises available for all participants as PDF.

Convenience

Attendees can join training sessions from their mobile or desktop device.

With online learning expanding throughout Academia and beyond, we have implemented our Live Virtual Training to stretch your learning experience past the boundaries of location – presentations are interactive, conducted live at a scheduled time throughout the course, mimicking our public sessions both in content and quality.

By logging into a virtual classroom, students participate in an interactive course, using our audio-visual online training platform. Our blended learning approach combines virtual classroom methods with online activities to form an integrated instructional approach. Upon successful completion, you can earn the appropriate designation, as well as learning credits and LEORON certificate of attendance.

In-House Courses

Time, Venue, and Content Entirely Up To You

Our in-house programs are meant for clients who choose to train their people, in their location of choice, at their preferred schedule. We'll fly our trainers and materials to your premises, securing you a custom-made, cost-efficient learning experience. We'll even break down an in-house and let you choose further:

Off-The-Shelf

Customized

Bespoke

Benefits of In-House Courses

Lower Investment

In-house group training is a cost-effective solution and helps optimize your training budget.

Flexibility

Training sessions are set according to your time/location preferences.
